Putin Starts Mechel Smelter

By The Moscow Times

September 07, 2010

Mechel on Tuesday started an electric steel smelter with an annual capacity of 300,000 metric tons at its Izhstal unit during a visit by Prime Minister Vladimir Putin. Mechel's Izhstal unit will boost production 37 percent to 465,000 tons of steel products by 2012, the company said.
