Haunting Fog Descends Upon Moscow

November 02, 2021

Muscovites were treated to a supernatural sight Monday evening as a thick white fog swiftly descended upon the city. Like a scene from a horror movie, the mist blanketed the Russian capital almost completely, significantly reducing visibility and transforming all light into an eerie glow. Under this mist, the Russian capital appears even more enigmatic than usual:

Red Square looms in the fog. **Pavel Golovkin / AP / TASS**
