The  Moscow Times

Norilsk Nickel said Friday that third-quarter nickel output rose 1 percent to 74,942 tons compared with the previous three-month period.

Copper production slid 6 percent to 95,925 tons, the company said. Palladium output declined 10 percent to 719,000 ounces, while platinum production dropped 12 percent to 173,000 ounces. ☒
