

KGB Archive Online

May 12, 2011

The  Moscow Times

VILNIUS — Lithuania has published online a trove of documents detailing KGB activities while the Baltic state was in the Soviet Union.

Prime Minister Andrius Kubilius said Wednesday the information would help restore "historical justice, and counter Kremlin claims that Lithuania was never occupied by the former Soviet Union."

The documents describe the structure, activities and staff of the KGB in Lithuania between 1960 and 1991.
