

Vnukovo Airport Facade Beams Collapse Onto Bus

January 31, 2012

The  Moscow Times

Decorative metal beams fell off the facade of Moscow's Vnukovo Airport on Tuesday onto a bus filled with passengers, injuring one of them, RIA-Novosti reported.

Doctors who examined the injured woman suggested she be hospitalized to identify whether she had sustained a concussion, but she refused and left the airport, Interfax reported.

A Vnukovo spokesperson told Interfax that the incident did not affect airport operations.
