March 19, 2012

The  Moscow Times

Polyus Gold International withdrew its application to a foreign investment commission headed by Prime Minister Vladimir Putin to redomicile to London, Sergei Lavrinenko, a spokesman for the precious metals mining company, said Monday.

Polyus Gold sought permission to have a London-listed entity control its assets to gain inclusion in the FTSE 100 Index. The company would also have had to increase its free float to 25 percent to get a primary listing and qualify for the gauge.
