The  Moscow Times

Moscow authorities have published Doroga.mos.ru, the road repair plan for the current year, on the Roads of Moscow portal, Vedomosti reported Friday.

All work — about 2,000 projects — is mapped out with the date of commencement and completion, and current status, according to the Moscow department of information technology.

The creators of the service say users will be able to leave feedback on the quality of the work and obtain information about contractors working on sites.
