

Video: Python Captured in Moscow Trashcans

May 16, 2017

Max Pixel

Emergency workers in Russia have captured a python discovered in a Moscow courtyard.

The animal was found among trash cans of the residential building on Dmitrov Shosse.

Russian news outlets have released reports on the snake's size, with unnamed sources telling [Russia's TASS news agency](#) that the animal was 5 meters long.

Embed:

Employees at Moscow Zoo who examined the animal told Russia's RIA Novosti that the python had been found in "poor condition."

An investigation to find the snake's owner is ongoing.
