

Russian Passenger Plane Slips Off Runway in Sochi Injuring 18

September 01, 2018

A Russian passenger plane ran off an airport runway outside Russia's southern city of Sochi early on Saturday and caught fire injuring 18 people, officials and state media reported.

Russia's Health Ministry said 18 people were injured but said there were no fatalities. The state-run RIA news agency said one Sochi airport staff member died during the clean-up operations.

Utair's Boeing 737-800, carrying 164 passengers and six crew members from Moscow to Sochi, did not brake in time after landing, RIA reported, citing local emergency services.

Russian flight safety watchdog will conduct an assessment of Sochi airport and Utair, Rossiya24 channel reported.

Safety concerns have plagued Russia's airline industry as it has witnessed multiple fatal crashes in recent years.

In June, a Utair plane carrying Peruvian soccer fans from the World Cup city of Yekaterinburg to Tyumen in Siberia had to land due to an engine failure that caused the cabin to fill with smoke.
