The Skyscrapers of Moscow City, in Photos

October 25, 2018

Moscow is more a city of brick *krushchevki* apartment buildings and panel housing than high-rises. But Moscow City — a cluster of skyscrapers in western Moscow — is a notable exception. The business district took two decades to build and now has some of the tallest skyscrapers in Europe. Here's a look at Moscow's business district from far, near, within and above.
