

Russia Puts on the Cosplay at Moscow Comic-Con

October 04, 2019

As comic culture continues to catch on in Russia, Moscow's annual Comic-Con has delighted, enthralled and captivated fans of comics and superheroes alike. This year's event alone is expected to draw more than 160,000 people. Similar to Comic-Cons in other countries, the event is a pop culture smorgasbord, showcasing the latest in movies, television and gaming as well as comic books. And in true Comic-Con fashion, those who attend are always encouraged to go all-out with their cosplay. Here are a few top cosplayers who could be seen around this week's event:
