

# Best restaurant deliveries in Moscow

## DELIVERY - ONLINE - BEST RESTAURANTS

May 11, 2020

It is amazing to see how Moscow restaurants adopt to the current quarantine situation. In a short time a large number of nice restaurants either connected to Yandex.Eda or Delivery Club services or extended their delivery zone to the whole Moscow area.

### **Moscowliving**

Some restaurants launched prepare-yourself concepts where customers for example get a chance to buy a hamburger set, marinated fish/meat or broth & noodles to do the last preparation on their own. This is a quite smart solution if you live farther away from a restaurant and are concerned that your order gets cold on the the way to your home. Another smart addition to the delivery menus is an option of ordering freshly baked bread.

We like Tokyo sushi a lot for the freshness of the fish and quite reasonable pricing for the quality you get. They have a great selection of rolls and tasty poke bowls. Sushi delivery can be combined with delivery from their Italian sister restaurant, which is convenient if not everybody in your family likes sushi. Delivery through Yandex. Eda / Delivery Club app or their

website.

Also one of our favorite restaurants is Bro and N, which currently offer delivery service. Here you can order authentic Italian pizza, which is really delicious. Pizza Margherita is by far our favorite pizza, but the other pizzas and pasta dishes are also highly recommended. And the breakfast is also very tasty, so this is a great way to get the brunch feeling home. Ordering is very easy via Yandex Eat delivery app.

Gorynych is one of our favorite restaurants in Moscow. Their creative pizzas and delicious hamburgers from their delivery menu are a must! And you can not go wrong in your order. Recently Gorynych has added a sushi section and a barbecue shop to their delivery menu. In the barbecue section they offer meat, chicken, fish for cooking on a grill or stove at home. There is a nice selection of sauces and freshly baked bread, which was actually still warm from the oven when we got our delivery home. Their bread with seeds is addictive! Delivery through their website.
