December 21, 2023

Dmitry Zhdannikov, a two-time Pulitzer Prize finalist, has been running Reuters' energy coverage in London across Europe, the Middle East and Africa for the past 12 years.

In his lecture, Zhdannikov explains how Russia's invasion of Ukraine and the subsequent Western sanctions on Moscow have resulted in a major shift in global energy flows and political alliances.

This lecture at King's College London is part of a series of talks by media professionals and experts on Russia organized by The Moscow Times at leading universities and research centers around the world.
