

Drone Attack Kills One, Sparks Fire at Yaroslavl Oil Refinery

August 28, 2026

@supernova_plus / Telegram

A Ukrainian drone attack killed one person and sparked a fire at one of Russia's largest oil refineries in the city of Yaroslavl, Russian and Ukrainian authorities said Friday.

Yaroslavl region Governor Mikhail Yevrayev [said](#) one civilian was killed and 27 others were injured after falling drone debris hit an intercity bus.

He claimed that all 67 Ukrainian drones were downed over the region, but that drone debris fell on residential areas, commercial properties and "industrial infrastructure."

Ukraine's military [said](#) it struck the Slavneft-Yanos refinery, which it said provides fuel and lubricants to the Russian military. President Volodymyr Zelensky later [confirmed](#) the attack and said

Ukraine's military [said](#) it struck the Slavneft-Yanos refinery, which it said provides fuel and lubricants for the Russian military. President Volodymyr Zelensky later [confirmed](#) the attack

and added that Ukraine's SBU security service had struck a Tu-95MS missile-carrying aircraft in the Saratov region city of Engels.

Exiled news outlet Astra [reports](#) that Ukrainian drones had already attacked Slavneft-Yanos at least seven times this year before Friday's attack.

In the Moscow region town of Pavlovsky Posad, a drone [slammed](#) into a Magnit grocery store, blowing out 46 windows at a neighboring medical clinic. Governor Andrei Vorobyov said the clinic remained open.

Separate Ukrainian attacks in the southwestern Belgorod region have [killed](#) two people and injured nine others over the last 24 hours, according to the local governor.

Russia's Defense Ministry claimed that air defense systems intercepted 512 Ukrainian drones overnight across 19 Russian regions and annexed Crimea.
